

A Trusted Voice for Victims of Negligence

Trusted by Clients; Trusted by Attorneys

“My experience working with Gene Moen was about 99% trauma-free. From the first moment I spoke with Gene, I felt comfortable, knowing that he would handle everything and that I didn’t need to worry. So I didn’t!

“For the entire year the case stretched on, it was mostly absent from my mind. It was never about the money for me but only about changing policy at the hospital where my husband died.

“However, I have appreciated the stability in my life created by the settlement. I was able to remain home with my children and did not have to go into the work force to put food on the table. I would not hesitate to recommend Chemnick Moen & Greenstreet to anyone seeking redress through this avenue. Gene Moen and his assistant Debra are heroes in my mind. They champion causes that give victims of medical malpractice a voice—a **voice with muscle!**”
